

Glen Cove Chamber of Commerce Meets with RexCorp Glen Isle Partners

RexCorp Glen Isle Partners, LLC Invites Chamber for Presentation

RexCorp Glen Isle Partners, LLC. invited the Chamber to hold its Board of Directors meeting at their downtown location, 20 Glen Street in Glen Cove. Darren Monti and Brandon Palanker presented a detailed rendition of the waterfront project proposed. Groundbreaking for this new venue is expected in 18 months and the Chamber was delighted to see the plans for this sight.

The presentation included a complete model depicting all aspects of residential and commercial allocations with a cautious intent to maintain the suburban feel of our community. Mayor Ralph Suozzi and Kelly Morris (CDA and IDA Director) joined the presentation and acknowledged the City's part to lend its hand in the appeal of the area. We discussed the positive effects this project will have to enhance traffic for our businesses in the City by including an amphitheater for special events, parking garages and an esplanade for all to enjoy on the waterfront.

The Board of Directors thanks RexCorp Glen Isle, LLC for their hospitality and for being so informative about this future project for the City of Glen Cove. Glen Cove Chamber of Commerce is one of the oldest organizations in the City, established in 1920.
